

## Summer School 2026

**Summer School dates:** July 2, 2026, to July 30, 2026

**Registration:** May 4th to May 25th

When a student is registered in Prism, the student will initially be placed on a waitlist, and the student will receive a waitlist notification. Once class groupings are determined, the students will be moved off the waitlist and will receive an acceptance notification. **This may not happen until early to mid June.**

Students can only select one course in the July session. **Students cannot register for summer co-op and additional courses.** The student must have a placement / employment for July.

### Important Things to Consider

- Summer eLearning follows a compressed timeline and requires a minimum 6-hour daily time commitment
- If a family is planning travel during the course:
  - Meeting daily learning expectations may be challenging
  - Before leaving Canada, families must:
    - Set up Multi-Factor Authentication (MFA)
    - Confirm that platforms such as Google or YouTube are accessible in the destination country
    - Be aware that DSBN I.T. support is not available for students outside of Canada
